Plate 1

Compiled Subsurface Data

Town of Minden, New York

Explanation

Well from USGS Site Inventory Database

- Sand and gravel
- Till
- Bedrock

Well from NYSDEC Water Well Program Database

- Sand and gravel
- Bedrock

NYSDOT Test Boring

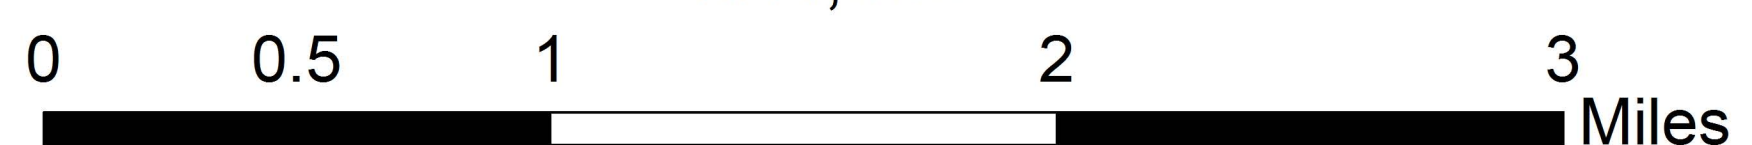

- ⊗ Overburden
- ⊗ Bedrock

About This Map:

This map shows the well and test boring data that the New York Rural Water Association collected. The total depth, depth to bedrock, and the yield is displayed for each data point (see notation below).

Scale

1:24,000

Well/Boring Label Notation

The first number is the total depth, the second number is the depth to bedrock, the last number is the well yield (if applicable).
